

A photograph of the International Atomic Energy Agency (IAEA) building in Vienna, Austria. The building is a large, curved structure with many windows. In the foreground, there is a fountain with many small jets of water. Behind the fountain, a row of flags from various countries is displayed. A man in a white shirt and tie is standing in front of the fountain, giving a thumbs up. The sky is blue with some clouds.

# IAEA Internship Report

Takanari Fukuda

# Project

**Human resources fostering project by MEXT**

(グローバル原子力人材育成ネットワークによる戦略的原子力教育モデル事業)

From 18 universities, 2 persons to be dispatched to IAEA funded by MEXT

More than a few interns funded by different organizations, whose period are 3 - 6 months

# Internship Task

In **Nuclear Data Section** / Division of Physical and Chemical Sciences /  
Department of Nuclear Applications / International Atomic Energy Agency

Checking the completeness of the fission-yield data in nuclear data base IAEA has developed.

Mainly working on large size Excel file. Excel VBA and Python are often utilized.

Working desk on the 23<sup>rd</sup> floor

## 国際的に活躍するとは？[1]

- 物理的に海外に行くことではない
- 国際社会を俯瞰して自国の状況を正確に捉えられる
- 他国・世界を味方につけられる

## そのためには？

- 自国の顔として**国内で**認知される
- 諸外国と対等に議論できる実力を身につけること
- したがって、適切な海外滞在期間は概ね 2 ～ 5 年（短いのも長いのもだめ）
- 衛星/satellite（使い捨て）にならないように

Thanks to everyone who helped me
